Summary

Software Engineer: Software engineer with internship experience shipping production SaaS features, improving data reliability, and delivering release-safe code.

Professional Experience

Seam.ai | Software Engineering Intern | Remote | Aug 2024 - May 2025

- Built and supported multi-tenant SaaS workflows serving 3 subscription tiers and 100+ users per organization.
- Operated production data/NLP workflows processing 50K+ records per day and improved reliability through SQL validation and triage.
- Contributed to CI/CD and observability workflows that reduced incident MTTR by 60%.

Aeyesafe | Software Engineering Intern (Sensor Data and ETL Testing) | Remote | Jun 2025 - Aug 2025

- Validated ETL outputs and API-fed sensor datasets across edge conditions during a 3-month release-testing internship.
- Documented reproducible runbooks and handoff steps that improved support triage consistency.
- Ran daily data-quality checks for 3 recurring anomaly classes: missing fields, timestamp anomalies, and out-of-range values.

Austin College | Software Engineering Intern (GPA Forecast Tool) | Sherman, TX | Jan 2025 - May 2025

- Built reporting and forecasting workflows used by 100+ stakeholders across 1,000+ records.
- Added 58+ unit tests and edge-case validation logic to reduce regressions and improve release confidence.
- Kept forecast calculations within <1% error through validation of boundary and retake scenarios.

Projects

Buzzr (Expo, React Native, TypeScript, Supabase/Postgres)

- Scaled the codebase to 214 source files and 90K+ lines across app, backend scripts, and data-import tooling.
- Maintained 28 automated test files (~2.9K test LOC) to reduce regressions on high-change features.

Buzzr Desktop Web (Next.js, TypeScript, Tailwind CSS)

- Shipped 39 frontend source files (~2.8K LOC) with responsive sections, shared components, and deployment-ready scripts.
- Built a production-ready Next.js + TypeScript landing app with Tailwind CSS and Framer Motion interactions.

Education

Austin College, Sherman, TX | B.S. Computer Science and Mathematics | May 2025

Arizona State University, Tempe, AZ | M.S. Computer Science (Incoming) | Aug 2026 - May 2028

Skills

Languages: Python, TypeScript, JavaScript, Java, SQL, C++

Frontend: React, Next.js, Expo, React Native, HTML5, CSS

Backend: Spring Boot, Spring MVC, Core Java, Multithreading, FastAPI

Cloud and DevOps: Docker, GitHub Actions, CI/CD, Jenkins
